WeatherTRAK Central RELEASE – Summer 2013

CB_072313

WeatherTRAK.net 7.8 and WeatherTRAK Water Budget Manager™ 07/23/13

WeatherTRAK Budget Manager 1.5

Products: WeatherTRAK Central – enhancements to WeatherTRAK Budget Manager™

Summary

The WeatherTRAK.net 7.8 release gives WeatherTRAK Central users the ability to align measured and estimated water usage consumption information with either the calendar month or the associated water bill service period. WeatherTRAK Budget Manager™ enables users to clearly compare water bill information with measured and estimated usage for tracking and auditing purposes.

Overview of WeatherTRAK.net 7.8 Release

WeatherTRAK.net 7.8 provides an updated version of WeatherTRAK Water Budget Manager providing additional remote diagnostic features and user interface upgrades.

WeatherTRAK Water Budget Manager 1.5

WeatherTRAK Budget Manager provides simple real-time visibility into a site's water consumption compared with up to three different user-defined budgets.

Updated WeatherTRAK Budget Manager Site Dashboard - Provides a graphical view of site water consumption or fiscal dollars compared with the up to three user-defined budgets.

When integrated with WeatherTRAK's flow-enabled central controllers, WeatherTRAK Budget Manager also provides daily measured and estimated usage consumption information to easily see the site's budget status.

New in WeatherTRAK.net 7.8 is the ability to align measured and estimate usage consumption information with either the calendar month or the associated water bill service period. This enables users to clearly compare water bill information with measured and estimated usage for tracking and auditing purposes.

WeatherTRAK Budget Manager's Budget Monitor - Users can check the status of a monthly or annual budget at a glance. This interactive interface allows a user to review information by Account, Budget Type, Actual Consumption Data Source, Unit, Month and Year.

New in Budget Monitor is the ability to see measured and estimate consumption usage aligned with either the calendar month or associated water bill service period.

WeatherTRAK Central RELEASE – Summer 2013

CB_072313

WeatherTRAK.net 7.8 and WeatherTRAK Water Budget Manager™ 07/23/13

WeatherTRAK Budget Manager Reports - The Water Budget Account Report provides a graphical budget status summary for all sites in an account as well as individual status for each site. This report provides an executive summary that can easily be understood. The Water Budget Site report graphically summarizes a site's total usage across each water meter and controller giving users' information that they can easily share and explain to others about an individual site.

New in Budget Manager Reports are two new Actual Usage Sources: Measured Usage aligned with Billing Period and Estimate Usage Aligned with Billing period.

WeatherTRAK's Budget Manager 1.5 is included as part of the WeatherTRAK Central service. There is no extra fee.
